

**MODEL ANS. KEY****Précis 1****TITLE: MOSQUITOES CAUSES MALARIA**

Mosquitoes, which cause Malaria, breed in stagnant water. They cannot breed in dry lands. If we use kerosene, the stagnant water is covered with a layer of kerosene, the larva will die. By doing so, we could prevent the spreading of malaria.

**Précis 2****TITLE: GOOD MEN LIVE FOR OTHERS**

The character of good men is like that of trees. They live for others and do not lose their qualities even in losing their lives. They always follow the right path. Praise is immaterial to them. To live for one's own sake is to lead the life of beasts. Only those who lay down their lives for others will live forever in a world of bliss.

**Précis 3****TITLE: POVERTY — A BLESSING**

Mostly people regard poverty as an evil. They think money is essential for making life useful and happy. But actually a poor man is more contented with life than a rich man. He does not suffer from jealousy and worry. His home is sweet pure and happy. That is why great men have always emerged and will always emerge from the cottages of the poor.
